

Canadian PGA Instructional Team 2009

Dustin Wilson

Dustin is a new addition to the Core Golf Academy. He has tremendous passion for the game and brings a very strong athletic background alongside his years of golf experience to the team.

At the age of 19 he moved to the GTA from Thunder Bay to start his golf career. In that year he became a member of the CPGA being one of the youngest Professionals not only in Ontario, but the Country. He is also a graduate of the Professional Golf Management Program at Georgian College.

Dustin is a strong believer in every golf swing is unique and there is always room for improvement. With hard work and a good understanding from both the instructor and student, improvements can always be made.

Establishing strong fundamentals, building off strengths and working on weaknesses are key to a student's success. Making sure every student is being given the right information within their own capabilities and taking pride in a student's improvements has led Dustin to great success.

In the past few years he has created great relationships with students, members, and fellow CPGA Professionals. He thrives off being his own person and learning everyday as he never takes anything for granted and is very proud of his roots. His success' are a reflection of hard work and a great deal is owed to his Mother and Grandmother for giving him every opportunity to help him achieve his goals. He intends to make the best of every opportunity!

Favourite quotes: " Aim High" (Sean Foley) and "Be True and Never Settle" just something he picked up along the way!
